

“My Wine, Please”

Napa Valley's Mount Veeder Magic Vineyards
Offers Private And Personal Bottles And Barrels

Among wine lovers there is one goal that is quite elusive—owning a private bottle of extraordinary quality that cannot be found anywhere else.

In 2007 Karen and Greg Crouse decided to do something about this. On eighty acres, sixteen of which are planted to the finest quality mountain fruit using sustainable farming techniques, they established Mount Veeder Magic Vineyards.

A culmination of their lives and careers in the Napa Valley, the winery represents years of forging long lasting relationships within the community. This, along with their through understanding of grape farming and quality control, and their love for wine and winemaking, has provided a unique experience—a private barrel of wine that has the stamp of the client's taste and sensibility in mind.

Located in the world-renowned Mount Veeder Appellation, Mount Veeder Magic Vineyards offers a unique wine making experience, beginning with a custom coppered and toasted French Oak barrel, the customer participates in select stages of the wine making process from grape to bottle, including a personally designed label and bottle selection.

After two years of aging and refining, the result is approximately two dozen cases of personalized wine, made from the highly prized cabernet sauvignon grapes of Mount Veeder. With only approximately thirty barrels available each season, the opportunities for the discerning wine connoisseur are quite exclusive. ☐
